1. Program Overview

What VGK4U is and how it works

VGK4U is a multi-product Official Partner Program that empowers professionals to source deals across electric vehicles, real estate, insurance, marketplace goods and more. Partners earn commissions from their own deals (L1) and from deals by partners they have referred (L2, L3, L4), creating a multi-level income stream that grows with every recruit.

The program uses a coupon-based activation system. Each VGK Coupon represents █5,000 and activates one partner with 50,000 VGK Points — their working capital in the ecosystem. Active partners can source leads, close deals, track income in real time, and join Bonanza campaigns for extra rewards.

Platform	VGK4U — multi-product official partner network
Portal	Mobile-optimised partner dashboard (VGK App)
Revenue Model	Deal-based commissions (% of deal value) across 4 referral levels
Points System	50,000 VGK Points on activation; used for tracking and reward calculations
Coupon System	1 coupon = █5,000 = 1 partner activation; bulk purchase incentive available
Support	In-app helpdesk tickets; dedicated Field Support (L4)
Administration	VGK4U Supreme & EA staff manage approvals, commissions, and bonanzas

2. Partner Categories

Types of official partners in the VGK4U network

Each VGK partner is classified into one of the following categories. The category determines deal types available and the commission rate configuration that applies.

Category	Description	Focus Area
DEALER	Front-line sales partner sourcing deals directly with end customers	EV, Marketplace, Real Estate
DISTRIBUTOR	Mid-tier partner who also builds a network of Dealers below them	All product lines
VENDOR	Supply-side partner providing goods or services in the marketplace	Marketplace, Spares, ETC
REAL DREAM PARTNER	Specialist partner in real estate and property sourcing (Zynova ZR)	Real Dreams (ZR)
SERVICE CENTER	Authorised service & repair centre for EV and related products	EV Service & Repairs
VGK_TEAM	Core network member under the VGK4U team structure	Full product access

Revenue Segments: Each category maps to revenue segments (Solar, Insurance, Real Estate, EV, etc.). Bonanza campaigns can be restricted to one segment so only relevant partners are eligible.

3. Joining & Activation — Coupon System

How partners join, pay, and get activated

Partners do not pay a direct membership fee. Instead they use **VGK Coupons** — pre-purchased digital vouchers that act as activation tokens. One coupon activates one partner account.

Parameter	Value
Coupon face value	■5,000 per coupon
Activation points	50,000 VGK Points credited to the newly activated member (L0 joining bonus)
Bulk incentive	Buy 20 coupons → receive 2 FREE bonus coupons (pay for 20, receive 22 total)
Maximum per order	200 coupons per purchase request
Payment methods	Online Transfer, NEFT, IMPS, Cheque
Proof required	UTR / UPI reference number + payment screenshot upload
Coupon status flow	Pending → Approved → Ready to use Rejected

Example: A Distributor buys 40 coupons. Pays: $40 \times \text{■}5,000 = \text{■}2,00,000$ | Receives: $40 + 4 \text{ bonus} = 44$ coupons Can now activate 44 new VGK partners, each receiving 50,000 points.

Partner Activation Steps

Step 1	Upline partner holds approved coupons in their account balance
Step 2	New partner fills the registration form on the VGK App
Step 3	Upline uses 1 coupon from their balance to activate the new partner
Step 4	New partner account created; 50,000 VGK Points credited immediately
Step 5	Partner completes KYC — 4 documents: ID, address, photo, bank proof
Step 6	After KYC approval, partner can source deals and earn commissions

4. Commission Structure — 4-Level Referral Network

How commissions flow through the partner network

When a deal is confirmed, commissions are automatically calculated and distributed across up to 4 network levels. Percentages are configurable per segment by VGK management.

Level	Who Earns	Default %	Notes
L0	Newly activated partner (self)	50,000 pts	One-time joining bonus; not a commission
L1	Deal owner — partner who sourced and closed the deal	5%	Primary earner; always highest share
L2	Direct upline of L1 — the person who recruited L1	3%	Earns from every deal by direct recruits
L3	Upline of L2 — 2nd-level upline from the deal owner	1%	Passive income 2 levels down
L4	Assigned Field Support (staff who assisted the lead)	0%*	*Configurable per segment; defaults to 0%

Example — ■1,00,000 deal value:

L1 (deal owner) 5% = ■5,000 | L2 (direct upline) 3% = ■3,000 | L3 (2nd upline) 1% = ■1,000 | L4 (field support) configurable | Total distributed (L4=0%): ■9,000

Commission Confirmation Flow

All commissions start as **PENDING**. An EA or VGK Supreme staff **CONFIRMS** each entry, at which point the amount is credited to the partner's ledger. Entries may be **CANCELLED** with a reason note if there is a dispute or data error.

Monthly Target Bonus	If a partner's monthly deal volume exceeds a configured target, an additional bonus % applies
Markup %	Configurable markup on deal value per segment — affects the commission calculation base

5. Product Lines & Revenue Segments

What VGK4U partners can source and sell

VGK4U partners can source deals across multiple product lines. Each line has its own segment, which can be targeted by Bonanza campaigns or independent commission configurations.

Product Line	Code	Description	Deal Type
Electric Vehicles	EV	E-bikes, e-scooters, EV spares & accessories via Zynova marketplace	Product sale / service
Real Dreams	ZR	Residential & commercial property sourcing with Real Dreams developers	Real estate sourcing
VGK Care	ZC	Life, health, motor and general insurance product sourcing	Insurance policy sale
Solar & Renewables	Solar	Rooftop solar systems, installation sourcing for residential & commercial	Project sourcing
VGK4U Marketplace	Mkt	Consumer goods, spares, accessories on the VGK4U platform	E-commerce order
ETC Training	ETC	Enrolment sourcing for training and certification programs	Student enrolment
Fleet & Logistics	Fleet	Fleet vehicle orders and long-term leasing arrangements	Fleet order sourcing
Franchise	FRN	Franchise setup sourcing for VGK-affiliated business models	Franchise sign-on

Deal Lifecycle: Lead created → Won (deal_date) → Payment cleared (balance=0) → Physically completed (close_date). All three milestones are tracked. Bonanza campaigns require all three to qualify a deal.

6. Bonanza Reward Campaigns

Time-limited deal targets with cash or award rewards

Bonanza campaigns are limited-period contests. Partners who close a required number of qualifying deals within the campaign window earn a bonus reward — cash, a non-monetary award, or a gift. Campaigns can target one segment or be open to all partners.

Deal Qualification Criteria — ALL Conditions Must Be Met

Condition	Rule
Won within period	deal_date (status changed to WON) falls between campaign start_date and end_date
Payment cleared	deal_value_balance = 0 (all payments received within the campaign period)
Physical completion	close_date ≤ end_date + grace_days (default 15 days grace after campaign end)
Segment match	revenue_category_id matches campaign segment_id (NULL = all segments eligible)
Deal status	Deal status = "completed"

Campaign Parameters

Campaign Period	Start date → End date (configurable per campaign)
Grace Days	Additional days after end_date for physical completion to occur (default: 15 days)
Target	Number of qualifying deals required (e.g. 10 deals to earn the reward)
Max Winners	Maximum number of partners who can claim (slot-based — first come, first served)
Reward Types	Cash (■) credited to income ledger Award — trophy/certificate Gift — physical item
Segment Filter	NULL = all segments eligible; or restricted to one specific segment/category
Claim Trigger	Partner taps "Claim My Reward" in the Bonanza tab once status = "Achieved – Claim Now"

5-Step Reward Fulfillment Chain (Staff-Side)

After a partner claims a Bonanza reward, VGK staff process it through a mandatory 5-step workflow. Steps cannot be skipped. Staff may Reject at any step with a reason note required.

Step	Status	Staff Action
1	Pending	Claim submitted by partner; awaiting initial staff review
2	Staff Verified	Staff confirms partner met all deal criteria; marks as verified
3	Procurement In Progress	Reward being procured / cash prepared / award ordered

4	Dispatched	Reward dispatched — courier sent or bank transfer initiated
5	Delivered	Partner confirms receipt; claim closed successfully
—	Rejected	Rejected at any step — reason notes are required

7. Member Dashboard & Tools

What partners see and can do in the VGK App

Every VGK partner has a mobile-optimised dashboard with the following navigation tabs:

Tab	What's Available
Earnings	Commission ledger — PENDING & CONFIRMED entries, total earned, level-wise breakdown
My Deals	All CRM leads/deals sourced — status, deal value, balance outstanding, close date
Orders	Product orders placed through the VGK4U Marketplace
Tickets	Raise and track support tickets (EV issues, billing, general queries)
My Network	View upline chain and referred downline partners up to configured depth
Add Member	Activate a new partner using 1 coupon from the partner's balance
Ledger	Full financial ledger — all credit and debit entries with dates and references
Coupons	Buy new coupons (₹5,000 each), view coupon balance, view activation history
Profile / KYC	Personal details, bank account, and KYC document uploads (4 documents required)
Bonanza	View active Bonanza campaigns, track deal progress, filter by status, claim rewards

KYC Requirements

Document 1	Government-issued Photo ID (Aadhaar / PAN / Voter ID / Passport)
Document 2	Address proof (utility bill, bank statement, or government document)
Document 3	Passport-size photograph
Document 4	Bank account proof (cancelled cheque or passbook first page)
Important	Approved documents cannot be re-uploaded. Full KYC approval required before commission release.

8. Staff Management & Approvals

How VGK staff oversee the partner program

VGK staff access a dedicated **VGK TEAM** section in the staff portal with full management tools for members, commissions, income, coupons, and bonanza campaigns.

Staff Page	Purpose
VGK Members	All registered partners — status, KYC, points balance, upline/downline tree, income stats
Commission Config	Configure L1/L2/L3/L4 % per segment; set monthly targets and bonus rates
Income Management	Review PENDING commission entries; confirm or cancel with notes; view partner ledgers
VGK Coupons	Manage coupon purchase requests — approve/reject payments, track partner coupon balances
Bonanza Campaigns	Create & manage deal-based bonus campaigns; set targets, dates, rewards, segment filters
Bonanza Claims	Process partner reward claims through the 5-step fulfillment approval workflow

Staff Roles

VGK4U Supreme	Highest authority — full access to all menus, configurations, and approvals
VGK4U EA	Executive Admin — confirms commission entries; manages coupon approvals
VGK Mentor	Operations management; journey tracking; day-to-day staff oversight
VGK Staff	Role-based access — only pages explicitly enabled by EA / Supreme are visible

Menu Access Control: Non-supreme VGK staff only see the pages their EA or VGK Supreme has explicitly enabled. New pages (Bonanza Campaigns, Bonanza Claims) must be individually activated per staff role through the Menu Access Control page.

9. Key Terms & Policies

Important rules every VGK4U partner should know

Commission Release

Commissions remain PENDING until confirmed by an authorised EA or Supreme staff. Pending commissions are not withdrawable. Confirmation happens after payment clearance is verified at company level.

KYC Requirement

Full KYC approval (all 4 documents) is required before deal commissions are released. Approved documents cannot be re-uploaded — contact staff support for corrections.

Coupon Non-Transferability

VGK Coupons are linked to the purchasing partner's account and cannot be transferred to another partner after purchase.

Bonanza Grace Period

Physical deal completion (`close_date`) must occur within `end_date` + `grace_days` (default 15 days). Deals completed after the grace window do not count towards any Bonanza campaign.

Bonanza Slot Limits

Each Bonanza has a maximum winner cap. Once slots are filled, no further claims are accepted even if a partner has achieved the target — first come, first served.

Deal Integrity

Only fully-paid deals (`deal_value_balance` = 0) qualify for commissions and Bonanza counts. Partially-paid deals are not counted until full payment is confirmed.

Upline Requirement

L2 and L3 commissions flow only if valid upline partners exist in the network. If there is no L2/L3, that commission share is not distributed.

Field Support (L4)

L4 commission is paid to the VGK staff member assigned as Field Support on a specific lead. Configurable per segment; defaults to 0%.

Account Suspension

Partners with suspended accounts do not receive commission distributions while suspended. Commissions already CONFIRMED during the active period are unaffected.

Disputes & Corrections

Income entry disputes must be raised via the in-app helpdesk ticket system. Staff will review and may cancel/re-issue entries with proper reason notes.

This document is an internal program reference guide for VGK4U Official Partners and Staff. All commission rates, targets, and reward values are subject to change by VGK management. Platform configuration always takes precedence over default values stated in this guide.
